RED PILL

Is our Reality a Matrix

Written By Sollog

WARNING

This is your last chance.

After this, there is no turning back.

You take the blue pill

The story ends,

You wake up in your bed and believe whatever you want to believe.

You take the red pill

You stay in Wonderland and,

I show you how deep the rabbit-hole goes.

Morpheus

1999 Matrix

Synopsis

Do we live inside a computer matrix?

In the mid 1970's Dr. Adoni theorized that our Universe was a 6 or 10 Dimensional COMPUTER running an operating system using either a cube or decagon byte of information.

His theory became the basis of films such as The Matrix.

Our limited 3rd Dimensional Reality could exist comfortably inside an AI computer with the capacity to create 6 or 10 Dimensional simulations. Many physicists have come to the conclusion in recent years that our reality is nothing but a computer simulation.

40 years after Dr. Adoni first theorized dimensional bytes of data for computers to give them dimensional thought process, Dr. Adoni is now the Chairman of Helix Q dot org a cutting edge A I (Artificial Intelligence) think tank that has the operating system that could run our Universe or something very similar to it as soon as mankind can develop computer processors that can handle his dimensional math and computer theories.

In this amazing book Dr. Adoni reflects back on his breakthrough theories in math and computer science that have won him numerous honorary Doctorates over the decades.

Foreword

By SOLLOG

If you don't want to have all your beliefs destroyed:

DO NOT READ THIS BOOK.

If you are a true seeker of TRUTH, then in all means do continue.

I wrote this book for the part of humanity that refused the BLUE PILL of ignorance and know THE TRUTH they are seeking from taking the RED PILL is what this game we call life is really all about.

Nothing is what it seems my friend.

A short time ago the world was flat and our planet was a chess board square that was affixed to a turtles back.

Or, we were the center of the Universe and everything revolved around our pretty common water planet named earth.

Or there was neither rhyme nor reason to life so just do what the hell you wanted as many believe.

The ancient Greek philosophers known as the Pythagoreans believed all things were number and in a computer matrix reality or Hologram Universe they are 100% correct.

Our DNA resembles the very computer code I theorized almost 40 years ago in a think tank. Today I run my own think tank and we are creating the operating system that will soon run real AI (Artificial Intelligence) Computers capable of thinking in 6 and even 10 dimensions of thought or logic. You mind only thinks in 3 Dimensions, it's why you cannot create a Universe such ours in third dimensional space since you must think in higher dimensions of thought to create such a lowly level as our reality.

In this book are several of my works that I have combined to allow many humans to take MY RED PILL of knowledge and see for themselves how the Universe really works.

I have included works that discuss meditation techniques I use to disconnect from this 3rd Dimensional Illusion and travel into what I call the Astral Plane of TRUTH and in that dimension I have the ability to see not only the future, but the past and to also learn of new ideas in math and physics that I have been bringing back to this reality for decades now.

The skeptics will mock these words, yet the seekers can easily research my famous PROPHECIES written under my religious name of SOLLOG and see exact details were placed by me in time-stamped areas of the Internet known as Usenet for over 20 years now and they prove what I say is TRUTH.

I KNOW THE FUTURE and that FACT destroys the whole modern scientific concept of our reality, one cannot know the future unless one is the creator of it. Well the future is a program and our reality is a matrix and once you start to learn how to look for cracks in our reality you see WE LIVE INSIDE a predictable computer simulation.

When you realize that historic large quakes are predictable like a computer algorithm and that even mass shootings and huge acts of terrorism are predictable, how can it be these future acts that often take many lives are now KNOWN to a few think tanks such as my think tank?

This book is not intended for those of Academia, if you are in Academia READ MY PAPERS on the topics I have released over the decades. This book for the layman, a human being that looks at the world and thinks, WHAT IS WRONG with this crazy world, it is obviously OUT OF CONTROL.

Well the chaos you view my friend is not random craziness at all, it is a wicked little program that moves according to predictable patterns and once you see the patterns you understand WE ARE INSIDE A MATRIX.

IQ is defined by one's ability to take a large stream of data and find the patterns in the data. My IQ is off the charts; well over the so-called limit of 200 that science has placed upon the human intellect over the years. The reason I say this is that I do things other humans cannot, so I represent a new form of human being that is directly connected to the knowledge of our Universe the Astral Plane.

Humans like me have existed in the past and they are others here now like myself but most never fully developed their astral abilities as I have. So my knowledge is not from what I read in this reality over my many years on this planet, my true knowledge comes from another dimension that is above this reality and it is superior to anything a human can theorize in this plane of existence.

I am as Rob Zombie sang, MORE HUMAN THAN HUMAN.

Now don't get me wrong, I am 100% human, I came to be from my father and mother bless their souls, when they had the joyous act of love making that most humans emanated from. Some humans came to exist from evil acts such as rape and forced sex, but most of our came to be from two life forms that loved each other in the human way most of us experience in our brief time on this planet.

I was a little different than most of my family, my older brother was terrible in sports yet he was the smartest kid in New York City in the mid to later 1960's. He was a pure genius.

Me, I could read anything and memorize it to ace any test but I had no interests in academic things, my interests as a kid was playing any sport with a ball in it, and my excellence in sports was unusual in my family since my siblings while smart were not athletically gifted.

Until I reached about 7th grade my grades were given to reflect my disruptive nature in class, as soon as a teacher couldn't penalize me for trying to show them how stupid they were IN MY YOUTHFUL PLAYFUL OPINION, I got nothing but 100 grades or higher since if a teacher gave me a bonus question I would always get that right as well.

So around 12 years of age I was recognized as being a true genius by my schools. However, teachers that were not that good at teaching hated me, the reason is I made it a point to expose to my fellow students just how little these teachers really knew about the topics they were teaching.

In other words I was a bored smart ass that would never fit in a structured environment such as school or any company; it's why I formed my first technology company in 1976 at the tender age of 16. I could make a computer do anything I wanted up to the limits of technology at that point in time.

So from the age of 16 or so I started to do academic papers about things I knew from my astral dreams that I have had since a very young boy around the age of 5 is the first astral vision I can recall.

Now my theories are considered cutting edge math, physics, astrophysics and geophysics theories and I have a wall full of honorary doctorates that validate to some my theories are valid and will change the course of humanity one day.

So sit back and relax my friend as I take you on a Journey, a Journey where my knowledge is the RED PILL you were seeking so you too can then travel in REALITY in the Astral Plane and see how huge the Universe really is filled with many dimensions of thought and many intelligent life forms that are waiting to meet you and say hello,
