00:11

The End is very Near
Lost all you hold dear you didn't

00:19

want to hear now you tremble with fear

00:25

[Music]

00:27

this is SOLLOG

00:30

AKA Doctor Sol Adoni

00:33

in this episode of thee end th ee e ND

00:41

com I will be discussing my prophecies

00:46

known as the prophecies of sollog you

00:52

can also view them at SOLLOG .com

01:06

In 1995 on January 1st the very first day

01:11

of that year I awoke to my divine nature

01:20

in my name SOLLOG

01:23

In an astral vision before I

01:31

awoke that day which is basically an

01:35

outer-body experience that I manifests

01:41

from meditation at that time I had been

01:45

meditating over ten years as a Buddhist

01:49

I went to the beginning of time and to

01:56

the end of time I saw many

02:02

interconnections between everything I

02:05

also saw my future where I'd be doing my

02:09

prophecies how the world would get

02:14
further and further away from its

02:16
spiritual path and how a near event an

02:21
asteroid after 2020 would strike and

02:27
kill off most of humanity there are

02:33
three safe zones but the reality is no

02:40
place is really safe for long reason

02:44
humanity has failed to listen to my

02:47
warnings and turn off the over 500

02:51
nuclear reactors of which many are along

02:56
coastlines

02:58
so when asteroids start to hit the

03:02
oceans the tsunamis will create hundreds

03:06
of Fukushima events all over the world

03:09
and the end result is that level of

03:12
radiation kills all life on Earth except

03:17
for perhaps a few insects like

03:18
cockroaches

03:20
so life as we know it doesn't exist in

03:27
the long-term future some will survive

03:31
the tsunamis by being in the safe zones

03:36
but overall the earth if we don't turn

03:40
off these nuclear reactors have so many

03:46
radioactive spots spewing radiation into

03:52
the oceans the ecosystem of the earth is

03:56
bad

03:59
so that's the sad news people is 25

04:03
years ago my prophecies gave hope to

04:06
humanity and it's only gotten worse

04:12
nuclear reactors are still creating

04:16
toxic waste that cannot withstand

04:20
tsunami level events humanity is still

04:24
building near the coasts of the oceans

04:27
were these tsunami events have happened

04:29
- over and over throughout the history

04:31
of this planet and not only do

04:35
earthquakes cause tsunamis asteroid

04:38
strikes create mega tsunamis literally

04:44
walls of water that are thousands of

04:49
feet high you could be 150 miles inland

04:53
and these waves will still reach you so

04:57
only the highest points on earth

05:02
mountain ranges in South America Canada

05:06
North Asia or high enough and far enough

05:12
away from water with these tsunami

05:14
events do not wipe out the humans that

05:19
are located in those three safe zones

05:22
now in 1995 when I started doing my

05:26
prophecies they were all released to

05:28
what's known as useless and use net is

05:34
basically the original social media of

05:37
the Internet in the mid-90s 1995 to 1999

05:44
if not even a little longer into the

05:46
early 2000s people who were online had

05:52
news readers and they all read Usenet

05:57
groups that were devoted to topics that

05:59
they were interested in my prophecies

06:02
were put in Usenet Groups such as alt

06:06
Nostradamus

06:08
where fans and distractors of

06:11
Nostradamus were vigorously discussing

06:15
my prophecies the fact is that I wrote

06:19
only about 60 or so

06:22
major prophecies I've written and

06:24
released from 1995 to 2015 a 21 year

06:29
period they were all released to Usenet

06:35
and that has a time stamp that

06:38
people cannot alter so that was the main

06:43
reason they were released for free to

06:45
Usenet and they're all available for

06:48
free and you can see the original time

06:50
stamps they've also been put into a book

06:55
so it's easier to find them and read

06:57
them the books have interactive links to the

07:00
time stamp prophecies and you can see

07:03
unlike any other mystic psychic whatever

07:08
you want to call it before me or after I

07:11
had exact details about future events my

07:17
prophecies were so accurate that after

07:22
9/11 when exact details of 9/11 had been

07:27
on my site for three years before the

07:29
event I was detained illegally by the US

07:33
government and tortured for five years

07:37
in US prisons under Bush there's six

07:41
case sites in the US Supreme Court

07:44
detailing this criminal abuse

07:49
the US government inflicted upon me for

07:52
merely warning about the future so

07:55
that's how they treat a real prophet

07:57
today people they create fake cases

08:00
against you they hunt you down they

08:02
throw you in a jail the cases are

08:07
absolutely fake they appeared to exist

08:14
in a court record that anyone can create

08:17
in the government

08:18
and the end result is you don't even

08:20
have appellate rights when they put a

08:24
job like this on you so that's the

08:28
history of my prophecies if you go to

08:31
SOLLOG .com or thee end com there's links

08:35
to the prophecies pages and you can see

08:38
year by year my major prophecies being

08:41
released 1995 the first prophecies on

08:46
January 1st 1995 were released then the

08:51
may 13th prophecy also that year my fax

08:55
to the media about the Oklahoma City

08:58
bombing also resulted in the government

09:01
detaining me Tucumcari New Mexico Nexus

09:06
for aliens that used to work with les

09:10
Aspin and the second hidden government

09:13
in the United States that's out near

09:15
Roswell New Mexico in Tucumcari New

09:18
Mexico 97 is a major prophecy I released

09:24
I know to prophecy details the attack on

09:30
the Trade Centers tax on the media tax

09:35
on celebrities also mentions Bill

09:41
Clinton suffering a death which is an

09:44
analogy for his impeachment so this was

09:48
before her Monica Lewinsky even was

09:50
known about I was writing about the

09:53
adulterer hitting a thrown out of office

09:59
1998 the 9/11 warning Zack details

10:05
released on 9 11 1998 about that event

10:11
it was covered in world media in Europe

10:14
and Asia United States had a little

10:17
blurb it was in the New York Times one

10:20
of my followers Leo Phoenix and gone out

10:24
days before 9/11 happened in 2001 and

10:28
said my 1998 prophecy was going to be

10:30
for

10:30
Phil now Leo's giving interviews and

10:35
he's described that angels descended in

10:38
ships and told him I am the God of God

10:44
and they're here to witness my judgment

10:47
on humanity

10:49
so that's Leo's story people later on

10:54
after 1998 there's many other prophecies

11:00
written and they all centered around

11:04
what I call the evil lines which hurl a

11:10
wise mr. power that ancient monuments

11:15
are built on so basically it was the

11:18
revealing of what's now known as the

11:20
pentagram of blood there's a whole

11:23
purpose of my prophecies to show

11:25
humanity look these mass death events

11:27
for millennia through history have been

11:30
occurring on the same lines that humans

11:32
flock to like moths to a flame and these

11:38
energy lines form pentagrams and it's

11:42
where mass death events occurs were all

11:44
the Terrorism events are occurring where

11:47
earthquakes occur hurricanes are all

11:50
this negative energy is striking

11:55
pentagrams of blood there's seven of

11:57
them around the world main one that I've

12:00
been writing about is the one in the

12:02
United States but if you go to pentagram

12:04
of blood calm you can see tons of

12:08
information for free about where this

12:11
negative energy is striking so that is

12:16
the main thrust of my prophecies over

12:20
the years was to reveal this pentagram

12:22
of blood also in 2002 my 31 disasters

12:29
prophecy that is the greatest prophecy

12:32
ever written gave exact locations of 17

12:36
locations in the United States were

12:38
hurricanes in the future would strike

12:40
they were all strong and

12:43
fifteen years period people I gave you

12:46
the locations in that one prophecy 15

12:50
natural disasters that struck it's the

12:53
greatest prophecy ever written

12:55
Nostradamus never wrote anything like

12:58
that other prophets never were so

13:01
exactly so many events that is why in

13:05
the future many refer to me is so long

13:08
the great I am the greatest prophet in

13:13
the history of humanity now a little bit

13:19
later on I reveal other prophecies such

13:23
as pentagram of blood prophecy which

13:26
gets very specific about the Solstice

13:32
lines and in these later prophecies I

13:40
list 49 cities around the world that

13:46
create you know the pentagram is blood

13:49
all over the world in exact cities would

13:53
exact events were mentioned in these

13:56
prophecies like Christchurch just

13:59
recently had a massacre in the mosques

14:01
my prophecies say that in the future you

14:05
know any type of religious temple mosque

14:08
Church will be where mass death events

14:14
occur so it's my terrorism prophecy

14:17
people just read the cities in this and

14:20
you know before all these recent events

14:23
happen you know these cities were

14:25
outlawed where they were gonna happen

14:28
Paris the massacres in Paris this is my

14:31
prophesied named Paris that's on one of

14:33
the central lines that create the

14:35
European pentagram of love so there's

14:39
not really a lot of prophecies when you

14:41
consider over 21 years in the around 60

14:45
prophecies that released now I also

14:48
released a set of quatrains like

14:51
Nostradamus a thousand of them

14:54
they're four line poems so they're

14:59
quatrains so they're very specific very

15:02
simple poems 60 prophecies that were all

15:08
released to use that most of our page or

15:11
two of them and they detail many exact

15:14
events so when you start tracking my

15:17
work and names I've named and the

15:20
pentagrams of blood and the dates have

15:22
one one three appears over and over like

15:26
Fukushima event I talked about new

15:29
nuclear plants having meltdowns tsunamis

15:33
and sure enough on 3/11 you know one of

15:37
the dates I said has 1 1 3 in it that

15:40
event happened and it's completely

15:42
destroyed the ecosystem of the Pacific

15:44
Ocean people you don't even understand

15:48
how tragic that one event was for

15:52
humanity and in the near future that you

15:55
know we got hundreds of these Fukushima

15:57
level events when tsunamis hit so unless

16:02
a miracle happens in humanity turns off

16:05
these reactors and it's the waste from

16:08
the way inland away from waters and

16:12
stuff it's I see no future for this

16:17
planet unfortunately anymore it's just

16:20
you know tried my best I put over twenty

16:23
years of my life which five were in

16:25
prisons for warning Humanity of the

16:29
future and no one wants to listen very

16:32
few people listen granted I said all

16:36
along it was only meant for about six

16:38
million people to take my words

16:40
seriously get out of Dodge and get up

16:42
the high ground and start getting meal

16:45
rations so they can hunker down and a

16:49
cave on the ground and have some bullets

16:52
and ammo so they could survive you know

16:55
the darkness from this asteroid event

16:58
it's gonna throw a lot of dirt up in the

17:00
air gonna lose sunlight for a few years

17:05
so forget global warming you're about to

17:08
have an ice age there's no Sun you know

17:12
going through the cloud that you know

17:16
these asteroids can create also you have

17:21
the event of nuclear terrorism managee

17:25
starts lobbing nuclear warheads all over

17:27
the world such an event again is gonna

17:29
block out the Sun and unless you have

17:32
five years of rations or more and then

17:35
seeds to replant when the Sun clears the

17:39
you know people just start eating show

17:41
you moons are gonna become cannibals

17:44
unless they're in a safe zone out of the

17:47
way from you know where people are

17:49
eating each other and they developed

17:52
areas so you know there's a lot of

17:55
negative things that are coming to pass

17:58
and these events people are sick with me

18:02
I mean life's been on the earth for over

18:06
500 million years the planets five

18:09
billion years now microbe life developed

18:13
almost instantly on this planet

18:15
my theory EoE theory explains it

18:18
elliptical orbit affects all over the

18:21
universe create abundant life I mean

18:23
microbial life is everywhere and if the

18:26
planet is stable long enough microbial

18:31
life does eventually become complex life

18:35
so when we look at the history of

18:37
complex life on Earth goes back 550

18:44
million years and after the first 50

18:49
million years almost all life was wiped

18:51
out over 90% of life and then happened

18:54
and then complex life to fit again and

19:01
[Music]

19:03
it grew vigorously for another 250

19:06
million years and then the same type of

19:10
event happened where almost all life was

19:15
wiped out

19:18
fast-forward another 250 million years

19:21
and that is where we are and already

19:31
scientists are calling our age the

19:34
hollow senic or the Holocene extinction

19:36
because of how many species have been

19:39
going extinct since the end of the last

19:41
ice age so it was in recent carbon that

19:47
created these extinctions you know the

19:50
planet has been becoming uninhabitable

19:54
for a lot of life forms starting 12,000

19:58
years ago now the interesting thing

20:01
about these extinctions is they match

20:06
the cycle of the Milky Way how long it

20:09
takes the earth and its Sun to orbit

20:13
around the Milky Way which is

20:14
approximately 250 million years so where

20:19
we are now was where we were 250 million

20:23
years ago when the last super-great

20:25
extinction happened over 90% of life

20:28
went extinct and another great cycle of

20:33
the Milky Way before that another 20 250

20:37
million years the first great extinction

20:40
of life started on this planet so every

20:45
time we're in this position of the Milky

20:47
Way most life just dies so is it there's

20:54
a

20:56
pull on the earth through gravity in

20:58
this area that makes the quakes more

21:02
common produces volcanic dust up in the

21:07
atmosphere that blocks off life is that

21:10
what's doing is there's more asteroids

21:12
in this area they're prone to hit or

21:15
something about this area of the Milky

21:18
Way is why these extinction events have

21:21
been happening every 250 million years

21:24
now there's three more extinction events

21:27
mixed in there that weren't as severe as

21:29
the two great extinctions so the three

21:33
lesser extinctions most recent was only

21:38
60 or so million years ago the alleged

21:40
dinosaur extinction well I've written

21:43
about that and what it was was a

21:45
hothouse effect you know the carbon on

21:47
earth reached 4,000 parts per million

21:51
and at that level the surface

21:53
temperature averaged about a hundred

21:55
thirty degrees in anything that was on

21:58
the surface couldn't breathe you know

22:01
the lungs of surface animals don't adapt

22:06
to extreme temperatures over 130 degrees

22:12
now where are we today well right around

22:15
400 or 10 percent of the carbon level

22:19
that produced the effect they killed off

22:22
the dinosaurs 100 years ago we were at

22:27
200 so the industrial age in that time

22:32
period last 150 years we've seen a

22:34
doubling of carbon is it from all the

22:39
carbon our factories produce all our

22:41
cars or is it also the carbon that's

22:44
being released from the polar caps

22:46
melting which is a cyclical thing so

22:50
it's happening we're having increased

22:54
carbon levels and result is it creates a

22:58
form of a hothouse effect that isn't as

23:01
severe as when the dinosaurs roamed but

23:05
the end result is

23:08
severe weather patterns have definitely

23:11
changed in the past 25 years since I

23:15
started writing my prophecies what was a

23:19
an occasional once-in-a-decade hurricane

23:22
five storm hitting the u.s. well now you

23:24
can have several in the year at the u.s.

23:29
earthquakes what used to be rare

23:31
earthquakes are not common there's been

23:33
a hundred percent increase in the

23:37
largest size place so this dad has been

23:40
around they've been tracking with

23:41
seismographs over 100 years worth a

23:43
quake data

23:44
in the past 20 years we've seen

23:47
literally a hundred percent increase in

23:51
largest quakes around the world so it's

23:55
not that there's more quakes it's that

23:59
the magnitude of the quakes are now very

24:03
extremely so my prophecies are

24:08
world-famous

24:09
they were huge in the 90s when you snap

24:12
with social media 2005 I went away for

24:16
five years I'm back since I've been back

24:21
my prophecies that were released after

24:23
2010 we're also released to YouTube

24:27
what is another timestamp now you have

24:31
this podcast of my show the end and it's

24:38
being kicked off with me discussing my

24:42
famous prophecies so people go read them

24:45
some of you or just skeptics well guess

24:49
what the time stamps prove you're a

24:51
moron

24:52
if you want to refute my prophecies you

24:58
have an IQ that is so low you shouldn't

25:02
even be under my work is time stamped

25:09
no one has ever been as accurate as I no

25:13
one will ever be as accurate as I so as

25:19
far as prophecies go

25:21
I am Rabi Nabi that's the great prophet

25:27
in Hebrew I am SOLLOG and I've signed

25:35
all my major prophecies SOLLOG the word

25:39
of one the one above God also decades

25:46
ago I released my work about how to create

25:54
6 and 10 dimensional realities inside

25:58
computers stuff they're calling AI

26:02
computers today is NOT AI people it's

26:06
just very powerful binary computers that

26:09
just understand on and off switches in the

26:14
middle 70s before personal computers

26:17
even existed i theorized dn a think-tank

26:21
cube bytes that's using a cube shape of

26:25
logic or six dimensions and also

26:29
decagon shape byte with 10 sides so a data

26:35
stream will not just be on and off

26:40
two-dimensional it would create six and

26:44
ten dimensional data streams now the

26:46
processors don't exist that would

26:49
understand my logic and my logic now is

26:54
in the think tank helix Q that's he

26:57
looks like a helix DNA strand with the

27:00
letter Q like you bet he looks cute org

27:06
reveals my six intense dimensional

27:11
languages and if humanity could create

27:15
processors that would understand my

27:17
logic these supercomputers would be real

27:21
AI they would

27:22
six and 10-dimensional thought and

27:24
little 3d animals like humans could live

27:28
inside a 6 or 10 dimensional computer so

27:33
that's what it's all led to people we're

27:37
realizing that the universe is basically

27:42
illusion that concepts been around for

27:46
millennia the Greeks pythagoreans

27:51
worshiped the Cube which is the cube

27:54
processor they thought life was illusion

27:59
the Buddhist life is illusion as well no

28:05
so it's like a dream state they're all

28:09
here experiencing this reality but your

28:14
energy goes way beyond this

28:17
three-dimensional holographic universe

28:21
another one of my books

28:22
holographic universes floral calm

28:27
computer universe theory calm so my work

28:31
is all about enlightening humans to the

28:36
fact that the vents our program and it

28:44
was proven with my work on the pentagram

28:46
of blood calm it's why my prophecies

28:50
were so accurate all I did was write

28:54
about things that happen along certain

28:58
energy loss it's the same lines the

29:00
great pyramids wrong the pyramids of

29:02
giza pyramids in Mexico other pyramid

29:06
shaped mountains that we're now finding

29:08
to go back way before modern man even

29:14
lived these huge earthen pyramids

29:17
most likely are man-made some type of

29:21
humanoid built these mountains that are

29:27
pyramids

29:28
and you exist all over the world people

29:31
so if you want to start getting into my

29:37
work my prophecies are the beginning you

29:42
can find my prophecies at prophecies sollog .com

29:44
find my prophecies on SOLLOG .com

29:48
on thee end th ee e ND com three

29:55
e's people there's links to my

29:58
prophecies it's best to read them in

30:03
book form or otherwise it takes a lot of

30:06
work looking around the net and you know

30:10
then that jumps around whereas the books

30:12
put them in a chronological order and

30:15
you can see them and the books have

30:17
hyperlinks to timestamps and Usenet I

30:20
mean I I wrote these things people

30:23
starting in 1995 and it's all led to the

30:28
great revelation of pentagrams of blood

30:33
holographic universe solstice lines

30:39
everything is related to energy and now

30:44
the world of physics has been turned

30:46
upside down with me revealing what was

30:49
wrong with Newton Einstein and Hawking they

30:52
were all wrong so theory E.org

30:57
is my book that rewrites the laws of

31:00
physics it shows how Newton's universal law

31:04
is wrong atomic mass of gases are not

31:09
attracted to the huge mass of Earth so

31:12
that completely destroys mass being the

31:17
main attraction of matter in the

31:22
universe

31:24
so is Einstein's equation $E = MC^2$

31:28
squared that he didn't even create

31:32
It was created before he released his

31:35
work other physicists knew about this

31:37
equation and it's just a simple math

31:43
Loop

31:43
it's nonsense if you understand math it's

31:47
almost an inside joke so so much for

31:53
Einstein as far as the black holes of

31:56
Hawking the new theory that I put forth

32:00
is the black holes are actually Anti

32:03
electromagnetic fields at the center of

32:07
every universe they're recycling

32:11
machines if any form of matter or energy

32:15
gets near the event horizon of this type

32:19
of field of the black hole that matter

32:23
and energy is reduced to one of two

32:25
things

32:25
matters reduced to simple protons that

32:28
are repelled so protons do not enter a

32:33
black hole in fact nothing enters a

32:36
black hole it's just the point where

32:39
matter is recycled into protons it can

32:42
be reused

32:44
now when energy gets near a black hole

32:47
on the black hole collects the energy

32:51
like a charge and then it disperses its

32:53
gamma ray bursts plasma so we see plasma

32:57
being emitted from black holes we see

33:02
protons being repelled so the data shows

33:06
that Hawking I Stein these people had a

33:08
clue as to what was really going on they

33:10
were miles off okay

33:13
black holes don't suck anything if they

33:17
just break down matter or recycle it and

33:20
repel it back as protons and plasma

33:26
so I'm a big thinker people small

33:32
remnant of humans that survive will know

33:35
who I am and as long as there are some

33:38
type of life walking around or of before

33:40
or the ultimate fate of this planet

33:43
kills all intelligent life that can't

33:48
survive toxic radiation levels well my

33:53
work and my theories will be known this

33:58
is so long so I'll go to my site

34:04
slog calm my 100 over 100 books that

34:08
I've written I've written through dr.

34:12
Sol Adoni my name for my academic

34:15
work go to Sol Adoni .com

34:19
that's Sol Adoni .com you know

34:23
the prophecy is SOLLOG .com you can go to

34:26
this podcast site thee end .com which is

34:31
also a series of books I wrote fictional

34:34
lives to account what happens when the

34:37
asteroids and nuclear war hits earth how

34:44
some humans do survive but how long

34:49
will they survive not long if we don't get

34:52
those nuclear reactors turned off and no one

34:55
can survive very long after the dust

34:58
settles and the Sun comes back out so

35:00
it's up to you people get involved yet

35:05
nuclear power plants decommissioned and

35:09
turned off it's not that much time left

35:12
to get it done so maybe humanity

35:16
surprises me maybe it doesn't

35:21
so that's my work people the pivotal

35:24
part the prophecies other podcasts I'll

35:28
be discussing various aspects of my work

35:34
in more detail like my work with quick

35:39
predictions three lines that are tied to

35:44
Solstice lines control all the quakes

35:47
great quakes .com that's where you can

35:51
find out that information and heory E is at

35:56
theory E .org I also work with AI level software

36:04
for future cube and decagon byte

36:08
processors at helix Q .org it's helix

36:12
letter Q Quebec org

36:21
I've done a lot of work over my life

36:23
people so go out there and start looking

36:25
at the sites download the books get

36:29
informed liquidate your assets and get

36:32
to high ground and maybe you'll be one

36:35
of the survivors you want to sit here

36:38
and deny what's going on that's fine you

36:42
don't have long the dock tonight the

36:44
asteroids will strike him then you'll

36:47
understand I was right you were wrong so

36:53
believe in it or disbelieve you'll know

36:59
in the near future how right I was

37:03
thanks for listening this is so log of

37:07
thee end th EE nd duck
